STRUCTURAL INVESTIGATION

The Baltic Sea Indigenous Court of Godland has decided to investigate the structures for which You work.

This is based on the fact that You in writing and/or verbally express an ability to submit a citizen / indigenous inhabitant measures of coercion. You express that You work within an authority that represents state but You have not proven this through legally certain proof in accordance with the rule of law.

Your knowledge about the rights of citizens and indigenous peoples will also be investigated.

WHY IS A STRUCTURAL INVESTIGATION DONE?

The Baltic Sea Region is a region where **the states have been infiltrated** by foreign power in such manner that the state's constitution often have ceased to apply and foreign financial owners have taken over the state and terrorize the nation's citizens and indigenous peoples. The systemic administrative violence is so extensive that the indigenous peoples of the region are mass emigrating from the Baltic Sea Region. Racist Roman Reich IV has shut down all pagan temples in the states where all were heathens 999 years ago. Baltic Sea Indigenous Court has found **Baltic Sea states to have been taken over by the World War III producing military corporate groups**, as seen in the investigation at f ex highcrimes.org.

At present, the entire **labor market**, through the blood-stained PetroDollar, **leads to service world war financing military corporations**, whose owners are in pedophile rings and among cannibals protected by immunity of financial and administrative institutions staging both sides of the GogUMogog wars, prophecied by Rabbi Judah the Pious, to reach total global domination this year. All in BIS.org involved central bank dependent governments are just colony business corporations that administer expropriation of wealth, slavery and genocide .

HOW IS A STRUCTURAL INVESTIGATION DONE?

You as an employee of the company must present your EMPLOYMENT DOCUMENT. The organization You appear to act through or for must be documented with its CHARTER AND BOARD OR WITH ITS ARTICLES OF ASSOCIATION AND MEMORANDUM. The Baltic Sea Indigenous Court examines if the Charter or Articles of Association enforces that the members of the board must work for the well-being of the state's citizens and indigenous peoples. AGREEMENTS SIGNED BY BOARD MEMBERS BETWEEN THE ORGANIZATION AND THE STATE shall be communicated. You must be able to demonstrate/prove DOCUMENTED EVIDENCE that the state is represented by a Council that has sworn an oath to the best interests of citizens and indigenous peoples. The State Council shall respect indigenous community decrees and state's constitution before all other laws and regulations and must through the government's structures in the administration have implemented the Constitution that All public power is based on the people. The State Council has to hold the lives of citizens and indigenous peoples as holy Divine creations that determine the peace, welfare, and order of government /constitution in their state. The entire chain between the authority wielding executive officer and the citizen's ability to exercise power through state organizations must be proven in this documentation.

The citizen's constitutionally decreed rights **shall all be approved by the citizen** as implemented in order that the State can be found demonstrably to be an existing structure that has authority and through which established courts have authority to judge citizen. The in Germany registered business enterprises fr UPIK.de or US DNB.com feudal registries do not have such a right or authority as they are foreign business enterprises.
