

Take part in the Celebration of a new Systematization of the Power of the People!

Direct coordination will take place 28th of May in the Little Aula of the Latvian University Central building in Riga, 11:30 - 16:00.

People's Power Day: [http://www.latvijasrepublika.info/tiekam ...](http://www.latvijasrepublika.info/tiekam...)

The Baltic Sun Foundation offers to coordinate the power of the People towards a new system which will maximize National satisfactions. This instrument, The Sun Model of the Balts will allow all public bodies to selfimprove and liberate themselves from systemic weaknesses (movie "Tron" is about such an advanced welfare modeling computer system). We are waiting for your suggestions and your lists of relevant organisations and capable individuals for:

- An IT Institute to develop a rational system (certifying the People's National Welfare stabilization masters)
- the establishment of The Balts Bank (National independent unit with a monthly maintenance payments to accounts of all permanent residents of Latvia and Lithuania (citizen wage),
- Heart Tribunal which addresses the systemic theories in modern genocidal processes in the current state structure (criminalizes the genocidal systems and will offer rehabilitation to those previously involved in developing or administering them)
- A People's Control apparatus (controlling the structures of Elections, Media, Courts, Universities and Schools, State Control, the Parliament, the Security Police, etc.),
- A People's Open Source System program for People's Competence Networking
- and other features of BSM...

Prewar Constitutions of Latvia and Lithuania are good enough for the nations to reboot their systems without any dangerous radical measures such as elections of all powerful Leaders or declarations of New Constitutions. The solution lies in the transfer of Power in the opposite direction – to the local government levels. The competent and capable people are thus activated to fill the crucially important functions and are encouraged to combine their powers into one instrument for People's Power. The Baltic Sun Foundation (BSF) offers such a modeling instrument which is called the Sun Model of the Balts (SMB) through which the People's competence is coordinated.

Get active to involve loyal organizations and individuals to safeguard the fragile life systems so that the protection of National welfare can be established as soon as possible! Respond to us and join the expression of People's power of the Balts! Post us your systemic and administrative expertise contributions and ideas!

Youtube channel BaltijasSaule gives insight in the 2 years of the BS Foundation:
<http://www.youtube.com/watch?v=RMQZqZt8RZY>

The World is at a crossroads. Humanity is coming to an evolutionary turning point - from competition, leading to a self-destructive society to a cooperation towards protection of all forms of life.

The Baltic Sun Foundation offers the implementation of the Latvian and Lithuanian Baltic peoples' heartfelt and symbolic task, which is expressed in the form of the combined lands - as the world's geographic heart. From this heart of the globe, the recovery of humanity will begin, with the nation's competence systematization tool - Sun Model of the Balts (SMB). The basic 14 basic ray shape shape of the Model has already been established.

This call is sent as a marker for the beginning of a new era. In the next few months, state authorities and municipalities are invited to send their practical proposals for **the post-slavery system of free individuals** . In autumn, these proposals will be compiled and in December, people can vote to select one of the alternative Baltic Sun model versions, all of which will guarantee the ecological environment, the people's welfare and rehabilitation and will make it possible for the economic refugees to return to their homelands.
